

Animal Nutrition with a plus

FROM BOTANICAL SEED TO BENEFICIAL FEED

Botanical Feed Ingredients

SIMPLE AND SAFE TO USE WITH NATURAL VALUE.

EXTRACT

TINCTURE

FAMIqs

POWDER

CUT

BLEND

In our pursuit of excellence, we bring you a range of botanical feed ingredients that redefine nutrition in animal husbandry. Our technologies and processing methods lead to different formats, to achieve your desired advantages and fit into your feed formulation as feed material, compound feed, feed additive or premix.

Poultry

Swine

Ruminants

Dogs

Cats

Horses

Rodents

Fish

Shrimps

Exploring the botanical potentials for animals comes naturally to us.

MartinBauer

WE ARE MARTIN BAUER.

Clients from the tea, beverage, food, pharma and animal nutrition industry count on us, to source, process and refine more than 200 botanicals from over 80 countries.

Join us in adding the functional values of botanicals from the field to the feeding bowl in a sustainable way.

Commitment To Quality

QUALITY ASSURED FROM SEED TO FEED.

At MartinBauer, quality is not just a standard; it's our commitment. With FamiQS and GMP+ certifications, our production plants in Germany adhere to the highest industry standards, ensuring every product meets stringent quality controls. From sourcing to processing, transparency and safety are at the core of everything we do.

A detailed view of a modern industrial manufacturing plant. The image shows a multi-level structure with a complex network of pipes, valves, and machinery. In the center, there are large, circular, metallic components, possibly part of a conveyor or processing system. The overall scene is filled with industrial equipment, including structural steel beams, railings, and various mechanical parts. The lighting is bright, highlighting the metallic surfaces and the intricate layout of the facility.
